- Leak-free for an enjoyable feeding

**PHILIPS**  
**AVENT**

# Highlights

## Bottles clinically proven

Unique anti-colic system consists of the Philips AVENT nipple and adaptor ring allowing air to flow into the bottle instead of your baby's tummy for better digestion.\*

## Easy to hold

Due to the unique shape, the feeding bottle is easy to hold and grip in any direction for maximum comfort, even for baby's tiny hands.

## Less colic

Unlike other bottles, the clinically proven anti-colic system is now integrated into the nipple, making it easier to assemble the bottle correctly. As your baby feeds, the unique valve on the nipple opens to allow air into the bottle instead of your baby's tummy.

## BPA free

Following EU directive (2011/8/EU), the Philips AVENT Classic+ feeding bottle is made of BPA free material (polypropylene).

## Easy to assemble in seconds

The new Classic+ bottle has only 4 parts for quick and simple assembly.

## Easy to clean

With only 4 parts, a wide bottle neck, and rounded corners, our bottle is easy to clean quickly and thoroughly. Have peace of mind that your bottle is truly clean in no time.

## Less fussing\*

Sleep and nutrition are vital to your baby's health and happiness. A randomised clinical

trial was carried out to see whether infant baby bottle design affects "infant behavior". The Philips AVENT Classic baby bottle was shown to significantly reduce fussing by approximately 28 minutes a day as compared to the comparator bottle (46 min vs 74 min,  $p=0.05$ ) This was especially true during the night-time.\*

## Leak-free

The new Classic+ bottle is designed to prevent leakage whilst feeding, for a truly enjoyable feeding experience.

## Less spit-up, burping and gas

The unique valve on the nipple flexes to your baby's feeding rhythm. Milk will only flow at the pace chosen by your baby to minimise overeating and spit-up, burping and gas.

# Specifications

## Country of origin

- EU

## Material

- Bottle: Polypropylene, BPA free\*
- Nipple: Silicone, BPA free\*
